□ PROFESSIONAL SUMMARY

Experienced **L2 Remote Support Engineer and Queue Manager** with **9+ years of IT experience** across **DXC Technologies, TCS, HPE, and Wipro**. Strong expertise in **incident management, SLA governance, queue management, Windows OS support, Microsoft 365, Active Directory, ServiceNow, and enterprise IT operations**.

Actively transitioning into **AWS & DevOps**, with hands-on experience building **real-world cloud architectures**, including **VPC, EC2, ALB, Auto Scaling, Lambda, S3, CloudWatch, CloudTrail, CloudFront, RDS, DynamoDB, NAT Gateway, and Bastion Host**.

Recognized for operational excellence through **Kaizen process improvement**, improving **3-hour SLA from 83% to 99.8%**, and awarded multiple performance recognitions. Proven ability to support **global users across 148 countries**, manage escalations, and deliver stable IT services under SLA.

□ EDUCATION

Bachelor of Computer Applications (BCA) – Pursuing (Part-Time)
Mangalayatan University

Diploma in Electronics & Communication Engineering

□ TECHNICAL SKILLS

Cloud & DevOps

- AWS EC2, S3, EBS
- IAM (Basics), VPC
- Application Load Balancer (ALB)
- Auto Scaling Group

- AWS Lambda (Python)
- Amazon RDS
- Amazon DynamoDB
- CloudWatch (Monitoring & Alerts)
- CloudTrail (Auditing & Security)
- CloudFront (CDN)
- Internet Gateway, NAT Gateway
- Bastion Host Architecture

Operating Systems

- Windows 7 / 8 / 8.1 / 10 / 11
- Ubuntu Linux

ITSM & Enterprise Tools

- ServiceNow
- Remedy
- SM9
- Salesforce

System Administration

- Active Directory (User, Group, Password & Access Management)
- Desktop Imaging & OS Deployment
- Exchange & Shared Mailbox Management

End-User & Messaging Support

- Microsoft 365
- Outlook
- Lotus Notes
- Skype for Business

Security & Endpoint

- Symantec Endpoint Protection (SEP)
- McAfee

Networking (Basic)

- Drive Mapping
- Folder Permissions
- Data Sharing
- URL & Application Troubleshooting

Version Control

- Git
- GitHub

☐ CLOUD & DEVOPS PROJECTS (HANDS-ON)

Deploying a Highly Available Web Application on AWS (ALB & Auto Scaling)

- Designed and deployed a **production-style HA architecture**
- Used **VPC, public & private subnets, ALB, EC2 Auto Scaling Group, and NAT Gateway**
- Implemented multi-AZ availability
- Ensured secure outbound access for private instances

AWS ALB Auto Scaling with CloudWatch – Real-World Architecture

- Built auto-scaling web architecture using **ALB & ASG**
- Distributed traffic across EC2 instances
- Configured monitoring using **CloudWatch metrics and alarms**

AWS Lambda S3 File Upload Logger (Python)

- Developed AWS Lambda using **Python**
- Triggered on **S3 file upload events**
- Logged file details automatically
- Demonstrated **event-driven serverless architecture**

AWS VPC Project – Secure Website Hosting with Public & Private EC2

- Created **custom VPC from scratch**

- Designed public & private subnets
- Hosted live website on **public Ubuntu EC2**
- Secured backend using **private EC2 + Bastion Host**
- Configured **Internet Gateway & NAT Gateway**
- Implemented route tables & security groups
- Tested end-to-end connectivity

Static Website Hosting on Amazon S3

- Hosted static website using S3
- Configured bucket policy & public access
- Managed IAM permissions

Portfolio Website on AWS EC2

- Deployed **NGINX on Ubuntu EC2**
- Managed code using GitHub
- Configured security groups

□ **MAJOR PROJECTS (ENTERPRISE & PROCESS)**

Kaizen Project – SLA Improvement

DXC Technologies – Bangalore

- Led Kaizen initiative for queue optimization
- Improved **3-hour SLA from 83% → 99.8%**
- Implemented process governance & tracking

Enterprise Migration – Microsoft 365 & Windows 10

TCS Client – Bangalore

- Migrated **3,000+ users** from MS Office 2007 to Microsoft 365
- Upgraded systems from Windows 8 to Windows 10 using **SCCM**
- Supported pilot batch deployment

- Reduced backlog from **600 tickets to 50 tickets in 2 weeks**

Desktop Hardware & OS Migration

Wipro Client – Bangalore

- Migrated **600 desktops** from Pentium to Intel i5
- Installed OS, Outlook, applications
- Performed user data backup & restoration

ACHIEVEMENTS

-  **Quarterly Champs Award – Q3 FY21 (DXC)**
-  **Champion Award – Top Performer** (Dec 2020, Jan 2021, Feb 2021)
-  **Kaizen Project Completion – 2024**

PROFESSIONAL EXPERIENCE

DXC Technologies – Bangalore

L2 Remote Support Engineer & Queue Manager | Dec 2019 – Present

- Managed **L2 & onsite queues** ensuring SLA compliance
- Monitored ticket ageing, backlog, breach risks
- Handled **major L2 escalations**
- Primary client contact during outages
- Prepared **daily, hourly, SLA & break reports**
- ServiceNow ticket scrubbing & quality audits
- Assigned tickets and managed workload
- Coordinated with resolver & offshore teams
- Conducted team huddles & process updates
- Onboarded and trained new joiners
- Windows OS & Microsoft 365 support
- Active Directory password reset & unlock
- SLA, quality & attendance governance

TeamLease Digital (Client: TCS) – Bangalore

Desktop Support Engineer | Nov 2017 – May 2019

- Level 1 support via tickets, calls, emails & remote tools
- Office 365 & Windows 10 migration support
- OS imaging (Windows 7 / 8 / 8.1 / 10)
- Outlook, Office 365 & Lotus Notes troubleshooting
- Hardware installation (printers, scanners, monitors)
- Virus removal & data backup
- Basic networking (drive mapping, permissions)
- Installed Adobe, SAP, Cognos IBM, Java, Python
- AD password reset & unlock
- Shared mailbox & distribution list management
- Skype for Business troubleshooting
- Ticket assignment & SLA compliance

Primus Global Technologies (Client: HPE) – Bangalore

Desktop Support Engineer | Oct 2015 – Apr 2017

- Global IT support for **148 countries**
- Remote desktop troubleshooting
- End-user hardware & application support
- Windows & Office installation
- Helpdesk ticket logging
- URL & application troubleshooting
- Network drive mapping
- Incident management (Critical / Major / Minor)
- Coordination with offshore teams
- SLA-based resolution
- Active Directory support

Skypro Technologies (Client: Wipro) – Bangalore

Desktop Support Engineer | May 2014 – Jul 2015

- Maintained **300–500 workstations**
- OS installation & uninstallation
- Software installation as per standards
- Printer & scanner network configuration
- Lotus Notes email troubleshooting
- Hardware installation (printers, scanners, monitors, gaming pads)
- Basic networking tasks
- Vendor coordination
- Data card configuration
- AD & Exchange user permission management

□ **CERTIFICATIONS & TRAINING**

- **AWS Certified Solutions Architect – Associate**
- **Microsoft MS-900 (Microsoft 365 Fundamentals)**
- **Six Sigma Yellow Belt**
- **Certified Network Administrator (CAN)** – Jetking Institute, Bangalore
- **Office Expert & Tally** – Madani Computer Academy
- **Kaizen Champion**
- **AI & Automation in Excel**
- **Basic Power BI**
- **AI Tools Workshop**

□ **PERSONAL DETAILS**

- Languages: English, Tamil, Kannada
